WHAT ARE WE?

"A group of passionate minds, united in purpose, crafting a vibrant club together."

The GLCT Model United Nations (MUN) Club, established on July 7, 2022, is a transformative club dedicated to empowering young minds in the field of global diplomacy. This vibrant and dynamic club comprises a diverse community of passionate students focused on developing their skills in diplomacy, public speaking, and critical thinking. Through engaging activities such as dynamic debates, interactive simulations, and collaborative problem-solving, members gain invaluable perspectives on global affairs while fostering meaningful connections and a deeper understanding of the complexities of the world.

Since its inception with just 20 committed members, the GLCT MUN Club has grown significantly, boasting a dedicated group of over one hundred members today. It has achieved notable success, securing six top delegations within four months, with consistently high participation of 20 to 35 delegates in all MUNs. This surpasses previous records in the Kerala Circuit of MUNs, demonstrating the club's exceptional growth within its first year, achieved through conscious determination and concerted effort.

OUR VISION

The Pinnacle of Perception

With a legacy of over a century and a half, we aim to lead in legal education, emphasizing the nuanced balance of law. Our mission is to bring justice to the marginalized through a thorough exploration of legal principles. We envision a legal framework that adapts to evolving human needs, ensuring fairness and equality for all. The MUN Club of Government Law College Thiruvananthapuram aligns our institution's vision with the Model United Nations, creating a dynamic platform for diverse perspectives and diplomatic discourse.

MUN transcends traditional debates, fostering bridges instead of battles, and viewing resolutions as steps towards a brighter future. Here, young diplomats don the mantle of legal scholars, wielding their pens as instruments of change. Set in the esteemed halls of international diplomacy, MUN becomes a courtroom of ideas, where eloquence and persuasion hold the keys to justice. This fusion of MUN and law offers participants a unique journey to comprehend global governance intricacies and harness the power of law as a catalyst for positive change. GLCT MUN'23 promises to be a convergence of visionary ideas, formed from legal complexities and international diplomacy.

Where diplomacy meets security.

The United Nations Security Council is a diplomatic simulation powerhouse. The Council operates with its primary responsibility as the maintenance of peace and International harmony through obviating conflicts. It is the only UN body with the authority to issue binding resolutions to member states. The Security Council persists as a remarkable stone in the UN committees for its unparalleled and refined use of non-military measures including arms embargoes and travel banks, It takes a lead role in the coordination of international counter-terrorism efforts as well. It's an arena where the erupted disputes of diplomacy and war get subsided and secured as a ceasefire. Yes! Not Historical, Not Futuristic, a purely harmonising symphony of the Security Council. The Security Council will embody a flawless combination of an exceptional thematic agenda and extensive experience.

*"Peace is not the
absence of conflict, but the presence of justice."*

- Martin Luther King Jr

UNHRC

Where my freedom is your freedom.

The United Nations Human Rights Council (UNHRC) is a pivotal committee within the United Nations system. Established in 2006, the UNHRC replaced the previous Commission on Human Rights to enhance the UN's capacity to respond effectively to human rights issues. UNHRC covers a wide array of topics, such as country-specific human rights situations, thematic issues, the Universal Periodic Review (UPR), and technical assistance. The council's agenda reflects its dedication to promoting and protecting human rights across the globe while addressing a wide range of pressing issues.

"Where, after all, do universal human rights begin? In small places, close to home – so close and so small that they cannot be seen on any maps of the world. ... Unless these rights have meaning there, they have little meaning anywhere. Without concerned citizen action to uphold them close to home, we shall look in vain for progress in the larger world."

– Eleanor Roosevelt

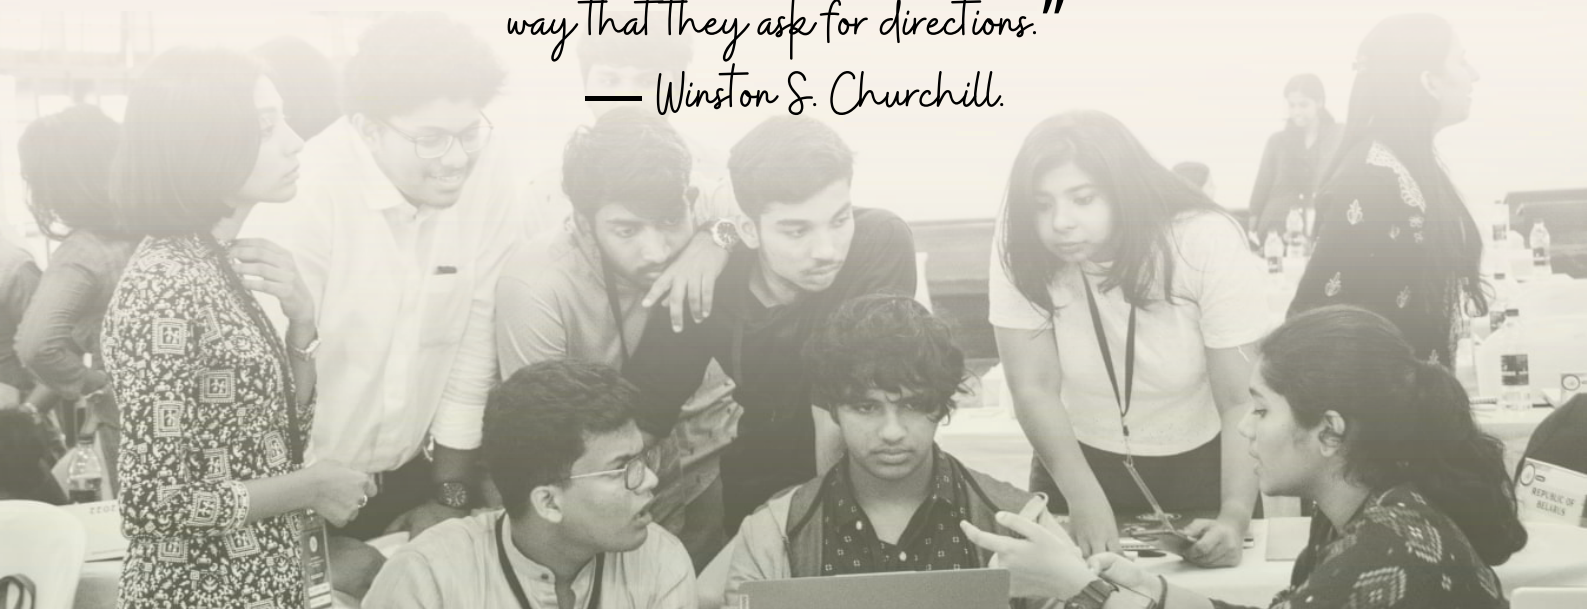

UNGA

Where words prevail over weapons.

The United Nations General Assembly is the realm where diplomacy encounters innovation, where tradition blends seamlessly with the future, and where the imaginations of today shape the global challenges of tomorrow. It stands out as an exceptional platform for engaging in multilateral discussions encompassing the entire spectrum of international affairs outlined in the United Nations Charter. It functions with a mission to envision and craft innovative solutions to the challenges ahead that await humanity. From the preservation of our planet's most precious resources to encounters with civilizations, ranging from the ethics of technology to the mysteries of the deep sea, UNGA acts as an architect of change.

"Diplomacy is the art of telling people to go to hell in such a way that they ask for directions."

— Winston S. Churchill.

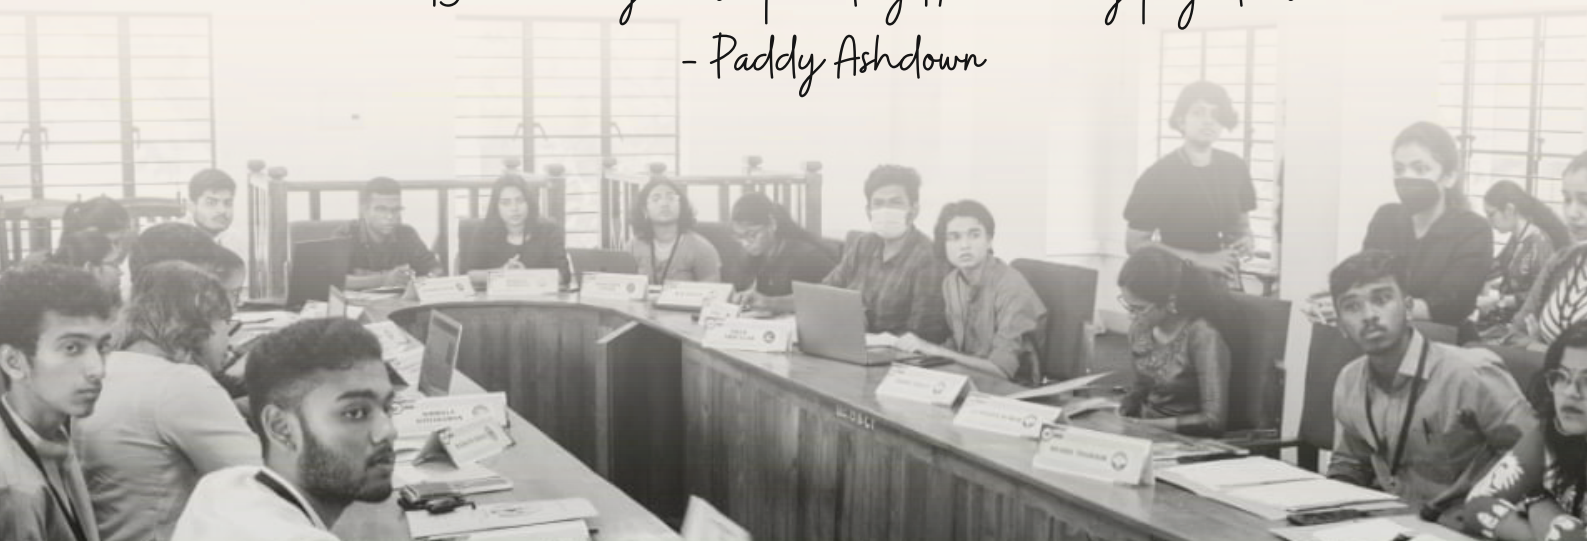

AIPPM

Where revolutionaries converge.

The All India Political Parties Meet, or simply AIPPM, is a conference where the political group of India reaches a general agreement on dilemmas of national importance before the initiation of a parliamentary session. Lacking the legislative power compared to the parliament, the initial purpose of the meeting was unrestricted political debate discussion and deliberation which may not be allowed in parliament due to time constraints. AIPPM aims to promote dialogue, consensus-building, and cooperation among political parties, fostering a sense of unity and shared purpose in addressing the challenges facing the nation. This meeting plays a crucial role in shaping the political landscape and policy direction in India .

There can be no place in a 21st-century parliament for people with 15th-century titles upholding 19th-century prejudices.

- Paddy Ashdown

The global eyes and ears.

The International Press symbolises the dynamic power of freedom of speech and expression. It is a forum that moulds unbiased journalists, editors and photographers with critical global opinions and signifies effective dissemination of information. It does not represent the interests of any specific nation, and endeavours to ensure transparency and accountability of the various committees in session. All its members shall have the right to observe, record and report engagements in any of the committees, subject to restrictions of the Executive Board. They shall conduct interviews as well as produce articles and reports of the proceedings. Thus, the privileges that its members have, forego countries and agendas and guard the democratic setup.

"When the public's right to know is threatened, and when the rights of free speech and free press are at risk, all of the other liberties we hold dear are endangered."

— Christopher Dodd
